Project Summary

04

The project will map the B/ALS topics to be covered by the e-learning modules through a survey among the target groups. A course syllabus, a clear course strategy outlining the pedagogical approach, and an assessment method will be equipped. The content of the modules, e-books, and 2D videos will be prepared in WP3. Regular testing workshops will be held. Through LTT activities and the multiplier workshops target group will be informed about the elearning platform in WP4.

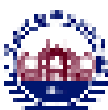

Equip the target group with the necessary knowledge to reduce the loss of life with the correct and timely intervention when faced with emergencies Offering up to date knowledge of emergency intervention methods. Increasing digital capacity of partner HEIs and target group. Recognition of the competencies, knowledge and skills gained through online B/ALS training through certification Increased dialogue between EU member and candidate countries in the field of higher education and health.
